Her Majesty's Inspectorate
for Education and Training in Wales

The purpose of Estyn is to inspect quality and standards in education and training in Wales. Estyn is responsible for inspecting:

- nursery schools and settings that are maintained by, or receive funding from, local authorities;
- primary schools;
- secondary schools;
- special schools;
- pupil referral units;
- independent schools;
- further education;
- adult community learning;
- youth and community work training;
- local authority education services for children and young people;
- teacher education and training;
- work-based learning;
- careers companies;
- offender learning.

Estyn also:

- provides advice on quality and standards in education and training in Wales to the Welsh Assembly Government and others; and
- makes public good practice based on inspection evidence.

Every possible care has been taken to ensure that the information in this document is accurate at the time of going to press. Any enquiries or comments regarding this document/publication should be addressed to:

Introduction

Purpose of this guidance

This guidance sets out the way the inspectorate will inspect primary schools for the six-year inspection cycle from 2010. It will be reviewed during 2012-2013 in preparation for the second half of the inspection cycle.

The purposes of inspection are to:

- provide accountability to the users of services and other stakeholders through our public reporting on providers;
- promote improvement in education and training; and
- inform the development of national policy by Welsh Assembly Government.

The inspectorate conducts a core inspection for all providers in each sector of education and training. This guidance explains how we will carry out core inspections. Where the inspection identifies a concern in relation to standards, quality of education and training or leadership and management, then the inspectorate will conduct follow-up activity with the provider. This guidance contains information about follow-up activity in Annex 9.

Primary schools can use this guidance to see how inspections work and to help them in carrying out their own self-evaluation. In addition, schools can use the inspectorate's guidance on self-evaluation that is aligned with the School Effectiveness Framework.

This guidance has two parts that are about:

- carrying out inspection; and
- making judgements.

Further information and guidance about inspections can be found on the inspectorate's website www.estyn.gov.uk

Legal basis for the inspection of primary schools

School inspections are governed by the Education Act 2005 and related regulations. Inspections must be conducted by teams of inspectors, led by a HMI, additional inspector or registered inspector, and must result in a written report. Section 28 of the Education Act 2005, says that inspectors must report on:

- the educational standards achieved by the school;
- the quality of education provided by the school;
- how far education meets the needs of the range of pupils at the school;
- the quality of leadership in and management of the school, including whether the financial resources are managed efficiently;
- the spiritual, moral, social and cultural development of pupils at the school; and
- the contribution of the school to the wellbeing of pupils.

This guidance interprets these areas in more detail.

Some schools have a religious character and teach denominational religious education. In these schools, religious education and the content of collective worship are inspected separately under Section 50 of the Education Act 2005 and are not included in Section 28 inspections.

The following categories of schools are inspected under Section 28 of the Education Act 2005:

- community schools;
- foundation schools;
- voluntary aided schools;
- voluntary controlled schools;
- maintained nursery schools;
- special schools; and
- pupil referral units.

Early years provision

Schools currently accommodate a range of early years provision. This includes, for example, Sure Start, playgroups, special needs groups and integrated centres. Such provision may be for children under the age of three, for three to four-year-olds or for pupils of all ages. Teams should only inspect this provision, if the school has registered the children as its pupils.

Where there is early years provision that is not part of the school (i.e. the children are not on the school's register) you must check that the provision has been registered with CSSIW and the local authority as appropriate. This is an important safeguarding issue and you should raise this matter with the school, if it has not taken the appropriate action.

Assessment in key stage 1 and Foundation Phase

This handbook refers to end of key stage 1 assessments. The inspectorate will provide further guidance on the assessment of Foundation Phase Outcomes before the summer term 2012.

Part 1: Carrying out inspections

Introduction

This section is set out in a way that reflects the sequence of work before, during and after a core inspection.

The reporting inspector is responsible for the conduct and management of the inspection, and for the inspection report. While this guidance focuses mainly on the role of the reporting inspector, all team members must comply with the same inspection requirements.

Principles of inspection

Inspectors will:

- ensure that inspection is of high quality and responsive to the needs of all learners;
- ensure that judgements are secure, reliable, valid and based on first-hand evidence;
- involve schools fully in the inspection process, including the use of nominees;
- use the school's self-evaluation report as the starting point for the inspection and to identify key issues for investigation in order to make judgements on the validity of its findings;
- include peer inspectors in the inspection process;
- keep to a minimum any requirements for documentation and preparation by the school;
- gain the learners' perspective and that of other stakeholders;
- apply the principle of equality for Welsh and English to all our inspection work, providing bilingual services whenever they are appropriate; and
- be constructive in identifying and supporting schools with important areas for improvement.

Code of conduct for inspectors

Inspectors should uphold the highest possible standards in their work. All inspectors have to meet the standards of Estyn's code of conduct. When conducting the inspection, inspectors will:

- carry out their work with integrity, courtesy and due sensitivity;
- evaluate the work of the provider objectively;
- report honestly, fairly and impartially;
- communicate clearly and openly;
- act in the best interests of learners; and
- respect the confidentiality of all information received during the course of their work.

It is important that inspectors judge the effectiveness of provision and leadership on their contribution to outcomes and not on the basis of any preferences for particular methods. The key to the judgement is whether the methods and organisation are fit for the purpose of achieving high standards of work and behaviour for all pupils.

You should be aware that requests for disclosure of information may be made for details contained in inspection evidence, letters and e-mails. All information (written or electronic) should be recorded in a way that is fit for the public domain.

Expectations of providers

In order that inspection and regulation are constructive and beneficial, it is important that inspectors and providers establish and maintain a professional working environment based on mutual courtesy, respect and professional behaviour. Inspectors are expected to uphold Estyn's Code of Conduct but we also expect providers to:

- be courteous and professional;
- apply their own codes of conduct in their dealings with inspectors;
- enable inspectors to conduct their inspection in an open and honest way;
- enable inspectors to evaluate the provision objectively against the Common Inspection Framework;
- provide evidence that will enable inspectors to report honestly, fairly and reliably about their provision;
- maintain a purposeful dialogue with the inspector or the inspection team;
- recognise that inspectors need to observe practice and talk to staff, learners and other stakeholders without the presence of a manager or senior leader;
- draw any concerns about the inspection to the attention of inspectors in a timely and suitable manner through the nominee or senior leader;
- work with inspectors to minimise disruption and stress throughout the inspection; and
- ensure the health and safety of inspectors while on their premises.

Health and safety

Inspectors will carry out inspections in accordance with the inspectorate's guidance on health and safety. If you observe anything that you think constitutes an obvious danger to the safety of staff, visitors or pupils, you should alert managers at the school being inspected. You should also notify them if less than obvious threats are noticed. In all cases you should make a separate electronic note of the threat and that the managers were informed of it. This should be copied to the health and safety lead officer in the inspectorate. You should report on obvious breaches of health and safety legislation in Key Question 2.

Responding to a safeguarding allegation

If an inspector is alerted to an allegation/suspicion in respect of a child, young person or vulnerable adult, you should follow the procedures as set out in Section 4 of Estyn Policy and Procedures for Safeguarding 2009.

The reporting inspector has a crucial role in this process and is responsible for making a safeguarding referral, reporting to the inspectorate's safeguarding officer and informing the provider that a referral is being made.

As directed by the safeguarding policy and pocket guide, inspectors have a duty to:

- report any concerns to the inspectorate's safeguarding officer or deputy;
- follow their instructions regarding information sharing;
- record details on the Estyn safeguarding log; and
- avoid investigating matters relating to safeguarding concerns.

Approach to inspection

This guidance sets out the procedures for core inspections of primary schools. These inspections will be complemented by follow-up activity in those schools that we have found, through their core inspection, to be underperforming.

The starting point for inspection is the school's evaluation of its own performance, supported by relevant performance information. Inspectors will not inspect all aspects of work in depth during a core inspection. They will sample evidence to test the school's own evaluation of its work. The self-evaluation report will guide how the team samples the evidence, but the main focus will always be on the standards that pupils achieve.

The standards achieved by pupils and the progress they make are the key measure of the quality of the education they have received and of the effectiveness of the leadership and management of the school. Inspection will focus on the needs of pupils and the impact that education and training have on raising standards. Annex 8 gives advice on inspecting units in schools.

We will inspect all schools during a six-year programme of inspections.

The inspection period and number of inspectors will vary according to the size of the school.

Inspection reports will cover all key questions, quality indicators and aspects of the common inspection framework.

All inspections are carried out in line with our Welsh Language Scheme, available from the inspectorate's website www.estyn.gov.uk and supported by supplementary guidance on inspecting Welsh language development.

The inspection team

Inspection teams will be led by a reporting inspector (HMI, additional inspector or registered inspector), with other team members drawn from among HMI or additional inspectors. Additional inspectors may be on secondment or contract to the inspectorate. Each team will also have a peer inspector (staff from another school) and a lay inspector.

The reporting inspector manages the inspection team and the whole inspection process, and is the first point of reference for everyone involved in the inspection.

Schools will be invited to select a senior member of staff, called the nominee, to work with the inspection team. The nominee will have sufficient seniority to act as a link between the school and the inspection team but need not be the leader of the school.

Contacting the school before the inspection

The school will receive four weeks' written notice of the inspection. Following this, the inspectorate will contact the school by telephone to set up the arrangements for the inspection. During this discussion, the inspectorate will:

- explain the purpose of the inspection and discuss an outline programme for the inspection;
- discuss the information required before the inspection and make the arrangements for receiving it in electronic form if possible;
- ask if there are any issues or risks the team should be aware of and ask for a general health and safety briefing for the team at the start of the inspection;
- establish whether the school wishes to have a nominee and, if it does, agree the role of the nominee;
- agree arrangements for setting up a meeting with parents/carers;
- arrange the availability of supporting evidence, including samples of pupils' work;
- ensure that there are agreed procedures for addressing any concerns or complaints that might arise during the course of the inspection;
- arrange for a member of the governing body to meet inspectors during the inspection period;
- organise any domestic arrangements such as a base for the inspectors and parking;
- set up the arrangements for feeding back the inspection findings;
- agree the arrangements for completing post-inspection questionnaires; and
- inform the school that the key matters of the arrangements will be confirmed in writing.

The inspectorate will request the following information as soon as possible:

- key background information on the school;
- a copy of the school's most recent self-evaluation report and improvement plan; and
- details of the school's timetables for the period of the inspection.

If the inspection is to take place early in the school year, the inspectorate may ask for samples of pupils' work from the previous year.

The inspectorate will ask the school to inform other partners and stakeholders about the inspection, including arrangements for the parents'/carers' meeting.

When schools are notified of inspection, they will be provided with questionnaires for pupils and parents/carers. The surveys will form part of the pre-inspection evidence. If there are 100 pupils or fewer all pupils should be surveyed. If there are more than

100 pupils the survey should include at least 100 or 25% if the total number of pupils is 400 or more. The sample of pupils should be selected at random by arrangement with the inspectorate. Inspectors will also carry out oral surveys during the inspection with specific groups of pupils, to follow identified lines of enquiry. Questionnaires containing a range of questions about the work of the school must be sent to all parents/carers. The inspectorate will collate and analyse the questionnaires and summarise the results in an annex to the inspection report.

Planning the inspection and preparing the team

Taking into account the school's self-evaluation report and any information already held by the inspectorate, the reporting inspector will plan the inspection and allocate responsibilities to members of the inspection team.

The inspectorate will arrange to obtain a briefing on the school from the local authority.

The reporting inspector will complete a pre-inspection commentary (PIC). This will include hypotheses based on the self-evaluation report and other information that inspectors will use to direct lines of enquiry during the inspection. The PIC will be sent to the nominee and the team before the on-site part of the inspection.

Inspections involve observation of teaching, training, and work with pupils. Schools are expected to send the reporting inspector a full plan of all the intended activities during the inspection week. On the basis of the information received, inspectors will select a small sample of sessions to observe and to evaluate. The sample will reflect the range of the school's work and support the investigation of lines of enquiry suggested by inspectors' initial hypotheses.

During the inspection

Initial team meeting

In the initial meeting of the inspection team, there should be a health and safety briefing from the school. After that, the team should discuss the strategy for the inspection. This should start with the school's self-evaluation report and the PIC.

Inspectors will sample, test and validate the evaluations made by the school. The discussions should centre on the evidence that needs to be reviewed. This will include observations, sampling pupils' work and interviews with pupils, staff and other stakeholders.

Gathering and reviewing inspection evidence

Inspectors will evaluate the provision and make two overall key judgements. These overall judgements will derive from the judgements made on the three key questions. Each key question is broken down into quality indicators which have a number of aspects.

The team will plan the inspection so that they can cover the aspects and pursue the identified lines of enquiry that are specific to the school.

The team will ensure that they have enough time to review the key evidence that is needed to make judgements. The team will need to ensure that it is focused on the key evidence that can be used to substantiate its judgements. The main forms of evidence are:

- briefings from local authorities;
- documentary evidence, including data on pupils' performance and progress;
- observation of teaching or training sessions and other activities;
- samples of pupils' work;
- the views of pupils and stakeholders; and
- discussion with staff, leaders and managers, governors and others.

Details of the main sources of evidence are included in Annex 2.

Direct observation of work will be used wherever possible to gather evidence to support judgements. The team will spend between 30% and 50% of their time on the inspection in observing teaching. Inspectors will normally spend no less than 30 minutes observing a learning activity.

Inspectors may select an additional sample of pupils' work to meet the needs of a particular line of enquiry.

Learner voice is a key source of evidence of achievement, attitudes and wellbeing. Discussions will provide an opportunity to explore pupils' knowledge and understanding of their work, how well they feel they are being supported, and to what extent the school contributes to their wellbeing.

The pupils that are to be interviewed should be selected carefully to provide evidence for particular lines of enquiry. Inspectors will request lists of pupils from the school and then select those that they wish to interview. The inspection team may request lists based on various categories, for example those with additional learning needs, Welsh speakers, and those from disadvantaged backgrounds and minority ethnic groups.

Schools should make information available to the inspection team about the standards achieved by pupils, particularly the results of any initial screening tests and assessments. This will help inspectors to judge pupils' progress and to come to a view about the standards pupils achieve compared to starting-points.

The team will need to consider stakeholders' views on the school and test out the validity of those views during the inspection in order to inform judgements.

It is important that the reporting inspector holds a daily meeting with the headteacher to agree new arrangements, discuss matters of concern, clarify inspection issues, obtain further information and discuss emerging findings.

Recording inspection evidence

Evaluation forms should be used to record all evidence and judgements. A judgement form must be completed that summarises the evidence from the inspection. This includes observation of learning activities, discussions with pupils,

interviews with staff, interviews with leaders and managers, scrutiny of documentation, performance information and samples of pupils' work.

Team meetings

The main purpose of team meetings is to arrive at an accurate and thoroughly tested corporate view of standards, quality and leadership. The whole inspection team will come to corporate judgements that are based upon sufficient valid and reliable evidence. Meetings will have clear agendas and there will be opportunities for inspectors to:

- test the judgements in the school's self-evaluation report;
- discuss emerging issues;
- resolve pre-inspection issues and hypotheses;
- discuss any gaps in the evidence base; and
- consider main inspection findings and recommendations.

Giving feedback

At the end of an observation, inspectors should, as far as practicable, provide feedback on the work seen. It may be necessary, in some cases, to give fuller feedback at a later time and this should be arranged at the end of the session. The member of staff should be told that these are interim judgements on one aspect of the evidence. All judgements may be amended, on reflection, after scrutiny of pupils' work or talking to pupils, or as the result of moderation within the team. For this reason, inspectors should not discuss any provisional levels that have been awarded as a result of the observation.

At the end of the on-site part of the inspection, the team will provide oral feedback to leaders and managers. A representative from the governing body and local authority should be invited to attend the meeting. The feedback should convey the main judgements and the reasons for them.

The feedback meeting provides the opportunity for staff to assimilate and to reflect on the judgements. The feedback should focus on the strengths and areas for improvement and the factors that contribute to them. The reporting inspector should explain to the school that issues may be discussed and factual matters may be clarified, but judgements are not negotiable. There should be broad consistency between the evaluations that are fed back and what appears in the written report unless the evaluations are required to change as a result of internal moderation within the inspectorate after the on-site part of the inspection.

All the judgements that are reported during an inspection are provisional and confidential until the report is published.

After the inspection

Follow-up activity

During all core inspections, the inspection team will consider whether the school needs any follow-up activity. Annex 9 outlines the inspectorate's guidance on follow-up activity.

The inspection report

The reporting inspector is responsible for producing a final inspection report that is clear to a lay audience and helpful to the school. We will publish reports bilingually where this has been requested, in line with Estyn's Welsh Language Scheme. In most cases, the main body of the report will be no longer than five pages.

The structure of the inspection report is based on two overall summary judgements, three key questions and 10 quality indicators and will take the following form:

About the school

Summary

- overall judgement on the school's current performance
- overall judgement on the school's prospects for improvement

Recommendations

Main findings

Key Question 1: How good are outcomes?

- standards
- wellbeing

Key Question 2: How good is provision?

- learning experiences
- teaching
- care, support and guidance
- learning environment

Key Question 3: How good are leadership and management?

- leadership
- improving quality
- partnership working
- resource management

Annexes

The two overall summary judgements and the judgements for the three key questions and the 10 quality indicators will be based on a 4-point scale:

Excellent
Good
Adequate
Unsatisfactory

The report will be produced within statutory or agreed sector timescales.

The report will indicate if the school requires any follow-up inspection activity (see Annex 9).

The reporting inspector will give the school a late draft report to help check the factual accuracy of the content. The school has five working days in which to consider the draft report and identify any factual errors.

Meeting statutory requirements

Primary schools' work is governed by a range of statutory requirements. The inspectorate expects schools to evaluate how effectively they meet these requirements through their own normal self-evaluation procedures. They should indicate how well they meet these requirements in their self-evaluation report. Inspectors will use the self-evaluation report and other information to identify any issues in relation to how effectively a school meets its statutory requirements. Inspectors will investigate these issues further during the inspection where they are likely to have a significant impact on standards and quality.

Failure to meet statutory requirements that affect quality and standards will be reported in the text and may result in a judgement no higher than adequate for the relevant quality indicator.

Details of the relevant regulations and guidance are included in Annex 3.

Assuring the quality of inspections

The inspectorate is committed to:

- effective selection, training, briefing, support and deployment of inspectors, including peer inspectors and lay inspectors;
- effective training, briefing and support to allow the nominee to play an active role;
- regular dialogue with the headteacher during inspection;
- criteria and recording systems that comply with the common inspection framework and guidance;
- careful review and analysis of evidence;
- unambiguous oral feedback on the summary judgements, key questions and quality indicators;
- consistently clear, accurate and well-presented reports; and
- maintaining appropriate internal moderation and quality improvement activities, including the occasional monitoring of inspections.

Schools should raise any concerns about an inspection with the reporting inspector during the inspection. Any objections to the findings of inspection should also be discussed with the reporting inspector as they arise during the inspection. The quality assurance of the inspection will always be carried out by the reporting inspector in the first instance and a sample of inspections and reports will be quality assured by the inspectorate.

If complaints about the inspection, inspection findings or the report cannot be resolved at this informal stage, then the school should write to the inspectorate's Feedback and Complaints Manager, or the contractor if their concerns relate to the contracted-out inspection of a school, asking for their complaint to be considered further. A leaflet explaining the inspectorate's feedback and complaints procedure is available from the inspectorate's website www.estyn.gov.uk.

Part 2: Making judgements

The guidance that follows shows how to complete the about the school section, summary and recommendations of the report, and sets out the reporting requirements for each key question.

About the school

This section of the report should contain brief background information about the school. The content of this section is normally agreed with the school. Where there is disagreement about the content of this section, the reporting inspector will make the final decision about what to include in the report.

This section must contain brief information on:

- the size, nature and location of the school;
- the background and circumstances of the pupils, including socio-economic disadvantage, for example percentage of free school meals, percentage of ethnic minorities, percentage of pupils on the SEN register and with statements of SEN, and pupil mobility;
- the linguistic background of the pupils;
- the features of the area served by the school;
- any significant changes since the last inspection; and
- any other relevant factors.

The following sentence should be adapted as appropriate and included in all reports:

‘The individual school budget per pupil for SCHOOL NAME s £XXXX which compares with a maximum of £XXXX and a minimum of £XXXX for primary schools in local authority X. The school has the XX (position) highest budget per pupil out of the XX primary schools in authority X.’

For example,

‘The individual school budget per pupil for Ysgol Gynradd Estyn is £3660 which compares with a maximum of £4257 and a minimum of £3426 for primary schools in authority X. The school has the 35th highest budget per pupil out of the 59 primary schools in authority X.’

Summary

The summary contains the two overall judgements on the school’s current performance and prospects for improvement. There should be a brief explanation of the reasons for these judgements. The summary must be consistent with the text in the body of the report and the oral feedback to the school.

Overall judgement on the school's current performance

The first overall judgement should be based on the judgements made on the three key questions. The greatest weight should be given to the judgement about Key Question 1.

Normally, this overall judgement should be no higher than the lowest judgement awarded to any key question. The overall judgement can be one level higher than the lowest level awarded to any key question, but the reasons for this exception must be explained clearly and fully in the report. During the process of moderating the inspection judgements, such exceptions will be carefully considered.

Overall judgement on the school's prospects for improvement

The second overall judgement represents inspectors' confidence in the school's ability to drive its own improvement in the future.

In coming to a judgement about the prospects for improvement, inspectors will consider whether leaders and managers have:

- the capacity and capability to make improvements and implement plans;
- a successful track record in managing change, addressing recommendations from previous inspections and securing improvement;
- clear priorities and challenging targets for improvement;
- coherent and practical plans to meet targets;
- resources to meet the identified priorities; and
- appropriate systems to review progress, identify areas for improvement and take effective action to remedy them.

The judgement on prospects for improvement should normally relate closely to the overall judgements for the quality indicators for leadership and/or improving quality, or to significant aspects within those quality indicators that support the overall judgement.

Judgement descriptions

The following descriptions are intended as guidance to help inspectors to make judgements by considering the relative balance and significance of strengths and areas for improvement.

Excellent – Many strengths, including significant examples of sector-leading practice

Good – Many strengths and no important areas requiring significant improvement

Adequate – Strengths outweigh areas for improvement

Unsatisfactory – Important areas for improvement outweigh strengths

Inspectors will need to check which of the above descriptors is the best fit for each of the summary judgements, key questions and quality indicators.

Judging key questions and quality indicators

The judgement for Key Question 1 cannot normally be above adequate when attainment outcomes show trends over three years in many key performance indicators at levels significantly lower than the averages for similar schools, taking account of the school's context, including deprivation factors.

There is a strong link between outcomes, provision and leadership and management. If leaders and managers are working effectively then this should be reflected in the provision and in the standards that pupils achieve. Hence, normally, the judgements for Key Questions 2 and 3 will not be at a level higher than the judgement for Key Question 1. Where there are differences between the judgements for Key Questions 1, 2 and 3, these should be explained in the text of the report.

Normally, the overall key question judgement should reflect the judgements for the quality indicators within the key question and should be no more than one level higher than the lowest level awarded to any quality indicator.

If the school does not have an appropriate safeguarding policy or procedures in place, the judgment for 2.3 (care, support and guidance) should be unsatisfactory.

The judgement on resource management as a quality indicator should not normally be higher on the scale than judgements for Key Question 1 but it may be lower.

Recommendations

The recommendations should give the school a clear and specific indication of the areas for improvement that it will need to address in its action plan. Inspectors should write the recommendations in order of priority. The recommendations should arise from the main judgements and should provide a clear and practicable basis on which the school can act. You must refer to any significant matters noted in the report where the school's practice does not comply with legal requirements.

Quality indicators

The 10 quality indicators used in inspections are set out below under the three key questions. For each quality indicator, there is a range of aspects. Guidance on how to inspect the quality indicator is set out under each key question.

Inspectors should provide an overall evaluation of all key questions and quality indicators and comment on all aspects. When writing reports, inspectors should take account of Estyn's writing guidance which is available on our website www.estyn.gov.uk.

Exemplification paragraphs for good and unsatisfactory judgements illustrate each quality indicator. These paragraphs should not be used as crude checklists, but as a reference to support the process of coming to a judgement. They should be used in conjunction with the judgement descriptions. Inspectors should weigh up the evidence and determine judgements on the basis of a best fit with the judgement descriptions.

Key Question 1: How good are outcomes?

In coming to an overall judgement for this key question, inspectors will give the greater weight to judgements about standards.

1.1 Standards

- 1.1.1 results and trends in performance compared with national averages, similar providers and prior attainment
- 1.1.2 standards of groups of learners
- 1.1.3 achievement and progress in learning
- 1.1.4 skills
- 1.1.5 Welsh language

Issues in inspecting the quality indicator

Inspectors should always consider carefully whether the overall judgement is consistent with the available data. When information on data is not reflected in inspectors' judgements in this quality indicator, the report should explain clearly why this is so.

Inspectors should consider the evidence from lesson observation, discussions with pupils and scrutiny of written and practical work in the light of the data.

1.1.1: results and trends in performance compared with national averages, similar schools and prior attainment

The starting point for analysing the performance of the school should be the All Wales Core Data Set. Inspectors should look at data covering a period of time, normally over the last three years, to identify trends in performance.

Annex 7 provides guidance on the use of data in the inspection of primary schools.

1.1.2: standards of groups of learners

Inspectors should consider the performance of particular groups of pupils, including:

- pupils entitled to free-school meals;
- boys and girls; and
- pupils with ALN or belonging to a vulnerable group (see Annex 6 for explanation of ALN).

Judgements about the achievement of pupils with ALN, whether they are in special units or in mainstream, should take account of their achievements in relation to agreed learning goals (see Annex 8 for details of units).

1.1.3: achievement and progress in learning

Inspectors' evaluation of pupils' achievement and progress should be based on lesson observations, scrutiny of pupils' work and discussions with pupils. You should evaluate how well pupils recall previous learning, develop thinking skills, acquire new knowledge, understanding and skills, and apply these to new situations. Where possible you should evaluate the standards reached by pupils and judge whether these are appropriate to pupils' age and ability. Judgements of achievement should recognise pupils' progress and development from a given starting point, relative to the context in which they learn. For pupils with ALN, judgements about achievement will be influenced by the information about their individual needs and abilities. Inspectors should also consider evidence in pupils' individual education plans (IEPs) when making a judgment on the rate of progress pupils make in relation to their ability.

1.1.4: skills

In inspecting skills, the focus should be on whether all pupils have the skills in communication, numeracy and ICT needed to **access** the whole curriculum and how well the wider curriculum itself develops pupils' skills.

Inspectors should consider and report on outcomes of key stage 1 and 2 assessments in English and/or Welsh, mathematics and ICT. Where available, you should also analyse results of other relevant assessments such as those of pupils' reading ability.

You should give most weight to the literacy skills of reading and writing. You should also report on standards in communication, number and ICT where pupils' skills in these areas are particularly good or are underdeveloped and have a detrimental effect on their progress in subjects across the curriculum.

Inspectors should judge standards in skills based on evidence from observations of lessons, scrutiny of pupils' work and by talking to pupils. Talking to pupils will provide evidence of pupils' speaking and listening skills. Scrutiny of work will demonstrate whether pupils can write clearly and read for understanding at the appropriate levels. You should consider the extent to which pupils' communication skills support or hinder progress in classroom interaction, with teachers and with peers.

You should identify and follow lines of enquiry about the performance of particular groups of pupils (such as those who have English as an additional language) and whether they have specific difficulties in accessing the curriculum. In particular, you should look at the standards of pupils whose progress may be held back by weak communication skills, for example pupils who are of average ability or below and do not receive support for additional learning needs.

1.1.5: Welsh language

In coming to an overall judgement on pupils' Welsh language development, inspectors should consider what it is reasonable to expect taking into account the linguistic background, the context of the school and the area it serves and the local authority's Welsh language policy. For example, pupils studying Welsh second language in a school with Welsh and English streams serving an area where Welsh is spoken by a significant proportion of the local community should achieve higher standards in Welsh than in an English-medium school serving an area where pupils have few opportunities to come into contact with Welsh other than at school.

You should consider:

- pupils' attainment at key stages 1 and 2 in Welsh or Welsh second language, as applicable, when compared with similar schools and previous attainment;
- continuity between the end of key stage 1 and key stage 2;
- the progress pupils make in Welsh lessons; and
- in the English-medium sector in particular, pupils' progress in using Welsh both passively and actively in different contexts beyond their Welsh lessons, for example in other subjects, during registration periods, assemblies and in extra-curricular activities.

Good standards

Generally, performance against main indicators for key stages over the last three years has compared well with similar schools and pupils' prior attainment. Instances of significantly below average achievement, especially in core subjects and for sizeable groups of pupils, are rare and there is a pattern of improvement or maintenance of good standards. In lessons and over time, most pupils make sound or better progress in their learning and the remainder make at least adequate progress. Most pupils apply their communication, numeracy and ICT skills securely in a range of contexts. They develop the wider skills and application needed to equip them for the next phase of their education. Most pupils make good progress in gaining skills in Welsh language. They generally achieve good standards.

Unsatisfactory standards

Generally, performance against main indicators for key stages over the last three years has often compared poorly with similar schools and pupils' prior attainment. Trends do not show much improvement. A significant minority or more of pupils do not acquire transferable skills in communication, numeracy or ICT and do not make adequate progress in their learning. A minority of pupils, or particular groups of pupils, underachieve at one or more key stages. A significant number of pupils do

not engage fully with the activities provided, which is reflected in the poor completion of tasks. Pupils do not make enough progress in gaining skills in the Welsh language. A significant minority of pupils achieve unsatisfactory standards.

1.2 Wellbeing

1.2.1 attitudes to keeping healthy and safe

1.2.2 participation and enjoyment in learning

1.2.3 community involvement and decision making

1.2.4 social and life skills

Issues in inspecting the quality indicator

The focus in this quality indicator is on outcomes rather than provision. Other key questions, particularly Key Question 2, will cover the school's work in promoting the wellbeing of pupils.

Inspectors should try to judge as far as possible those matters over which the school has some influence. You should make sure that enquiries focus on the impact of the school's work in this area.

Inspectors should take account of evidence from pupil and parent surveys.

1.2.1: attitudes to keeping healthy and safe

When evaluating the extent to which pupils feel healthy, inspectors may consider whether pupils have a secure understanding of how they can become healthy, both through what they eat and the physical activity they undertake. When evaluating the extent to which pupils feel safe, you may consider the extent to which pupils feel free from physical and verbal abuse in school.

1.2.2: participation and enjoyment in learning

When evaluating participation and enjoyment in learning inspectors should consider attendance, behaviour and attitudes, and the extent to which pupils have a say in what and how they learn.

When evaluating attendance, you should consider the overall attendance rate, noting any variations between particular groups of pupils. You should compare attendance rates with national figures and those of similar schools. Although it may be appropriate to note how a school performs in relation to national norms, it is the benchmark data that should normally guide judgements.

Inspectors should compare the school's rates of fixed-term and permanent exclusions with national figures and those of similar schools. You should also consider the extent to which pupils with a history of exclusion, in their current or previous school/PRU, demonstrate good behaviour and attitudes to learning.

When evaluating behaviour and attitudes, you should consider the extent to which pupils demonstrate good behaviour in lessons and around the school. You should observe whether pupils are considerate and courteous and relate well to each other and adults. In addition, you should look at pupils' attitudes to learning, in particular their interest in their work, their ability to sustain concentration and how well they engage in tasks.

When evaluating what input pupils have to what and how they learn inspectors should consider:

- whether pupils' views about what and how they learn are taken seriously;
- how pupils discuss the topics to be covered and help to plan schemes of work and activities; and
- whether pupils make choices about how and what they learn.

1.2.3: community involvement and decision making

Inspectors should evaluate the extent to which pupils, including those from different groups, take on responsibilities and play a part in the school and wider community. You should consider pupils' participation in decision making, including the effectiveness of the school council. You should judge the extent to which the school council gives pupils an opportunity to be involved in decision making, gives them responsibility and makes them feel valued. You should consider the extent to which all pupils, including those from different groups, are involved in making decisions about their life in school.

1.2 4: social and life skills

When evaluating pupils' social and life skills, inspectors should consider how well pupils show respect, care and concern for others, and whether they take on responsibility for their actions and their work. In addition, you should examine whether pupils have the skills needed to improve their own learning, work with others, solve problems and develop their thinking to move on to the next stage of learning. You should consider how well they are prepared for life and work outside school.

Good levels of wellbeing

Pupils are highly engaged and motivated and display pride and confidence in their work. Their behaviour and attitudes reflect their full participation in learning and in making decisions about their life in the school. Pupils generally feel safe in school and have positive attitudes to healthy living and eating. They enjoy physically active pursuits. Most pupils' attendance over the past three years is well above the median when compared with similar schools and they are punctual.

Unsatisfactory levels of wellbeing

A significant minority of pupils often waste time through persistent low-level disruption and display a lack of engagement in lessons and with decision-making. Groups of pupils exhibit poor behaviour regularly and this inhibits other pupils'

progress. Some groups of pupils feel under threat of bullying and their attitudes towards healthy living and physical activity are negative. Pupils' attendance rates over the past three years are well below the median when compared with similar schools. Rates of attendance show little sign of improvement and some pupils do not arrive punctually in class.

Key Question 2: How good is provision?

In coming to an overall judgement for this key question, inspectors will give equal weight to each quality indicator.

2.1 Learning experiences

- 2.1.1 meeting the needs of learners and employers/community**
- 2.1.2 provision for skills**
- 2.1.3 Welsh language provision and the Welsh dimension**
- 2.1.4 education for sustainable development and global citizenship**

Issues in inspecting the quality indicator

2.1.1: meeting the needs of learners and employers/community

Inspectors should note that schools are free to organise and deliver the curriculum in the way that best suits their circumstances and needs as long as they cover the National Curriculum (NC) and religious education. The main consideration should be how well the needs of pupils are met by the model of delivery.

You should judge the extent to which:

- the planning of learning experiences is successful in engaging the full range of pupils;
- teachers collaborate to plan flexible, responsive and innovative programmes;
- learning experiences cover National Curriculum and religious education requirements at each key stage for an adequate amount of time;
- whether any constraints on available options are in pupils' best interests;
- the curriculum builds systematically on existing knowledge, understanding and skills as pupils move from Foundation Phase to key stage 2 and then into secondary school; and
- pupils for whom all or parts of the National Curriculum have been disapplied have access to an appropriately broad and balanced curriculum.

You should examine arrangements for grouping pupils through setting or mixed-ability grouping. You should evaluate the impact of:

- any incidence of gender imbalance;
- over-large or exceptionally small class groups; and
- withdrawal groups.

You should consider the nature and extent of out-of-school learning, including sports, clubs, visits, special events, links with the community and other extra-curricular

activities. You should also consider how effective the arrangements are for delivering these and how they cohere with mainstream curriculum planning.

2.1.2: provision for skills

Inspectors should consider how well the school plans the development of pupils' communication, numeracy and ICT skills across the curriculum/areas of learning.

You should evaluate how well the school:

- ensures that pupils acquire the necessary literacy, communication, numeracy and ICT skills to be able to access the wider curriculum;
- develops pupils' skills through their studies across the curriculum; and
- makes sure that the provision for these skills is properly co-ordinated so that there is coherence in the pupils' experience across the curriculum.

You should scrutinise a sample of the school's planning for this, including schemes of work and lesson plans, to judge how well staff have embedded communication, numeracy and ICT skills into the experience of pupils across all subjects and areas of learning. You may take account of how well schools adapt programmes of study when pupils are working significantly below expected levels. You should expect schools to make certain that work is suitably challenging and demanding for more able and talented pupils and that materials and methods of delivery are suitably differentiated to make the curriculum accessible to pupils whose reading ages are below their chronological age.

You may consider how well staff exploit opportunities for developing these skills in their lessons. You may consider the links that exist between subjects and the English/Welsh, mathematics and information and communication technology (ICT) schemes. You may determine if there is continuity in pupils' learning so that the skills they gain in English/Welsh, mathematics and ICT lessons are reinforced and enhanced further in their subject studies. You should recognise that some lessons and subjects/areas of learning will naturally provide more opportunities for pupils to use these skills than others.

You should give the most attention to how schools ensure that pupils develop appropriate literacy skills across the whole ability range and how the school identifies and addresses deficits.

In judging the quality of provision, you may take into account the impact of any strategies, policies or working arrangements, including monitoring and evaluation, which aim to ensure that pupils develop skills systematically, over time and in a broad range of contexts. You should expect schools to do everything possible to help pupils achieve good levels of communication, numeracy and ICT skills. Where pupils do not have secure or good enough skills, or are falling behind, schools should have support in place to help these pupils improve these skills, such as provision for improving pupils' basic skills.

2.1.3: Welsh language provision and the Welsh dimension

You should evaluate the extent and quality of the school's provision for Welsh

language development in terms of its impact on the aspects listed under section 1.1.5. Schools should take account of the Welsh Assembly Government policy, objectives and guidelines identified in documents such as 'Our Language: Its Future', 'Iaith Pawb' and the Welsh-medium Education Strategy. Pupils should be aware of the advantages of learning Welsh and becoming increasingly bilingual.

It is a statutory requirement that all pupils learn Welsh up to school-leaving age. This includes pupils with statements of SEN, other than in cases where the statement of SEN stipulates that the pupil is disapplied from learning Welsh. Schools also have a statutory duty to have regard for the local authority language policy.

In primary schools with significant use of Welsh, you should consider the appropriateness of the time allocated for Welsh as a first language. This should normally be the same as for other core subjects. In predominantly English-medium primary schools, you should judge whether the school provides enough time to teach Welsh second language to all pupils. If the time allocation is well below one hour per week, it is unlikely that pupils are achieving well. You should comment on the arrangements to ensure that pupils learning Welsh reach appropriate standards. National Curriculum subject orders for key stage 2 include specific references to Y Cwricwlwm Cymreig. You should judge the extent to which the school promotes the development of pupils' knowledge and understanding of the cultural, economic, environmental, historical and linguistic characteristics of Wales.

2.1.4: education for sustainable development and global citizenship

ESDGC has a clear place in subjects of the National Curriculum, such as science and geography, and it is one of the five themes in the Personal and Social Education Framework.

Inspectors should consider the extent to which:

- the curriculum and extra-curricular activities help pupils to develop the knowledge, understanding, skills and values of ESDGC;
- the school acts sustainably, for example in using energy, minimising waste and recycling, and
- the school contributes to global citizenship, for example, through developing an understanding of the wider world.

Good learning experiences

Learning experiences offer stimulating opportunities for learning that make the most of pupils' experiences within and beyond the school. Detailed and imaginative planning and organisation ensure that pupils are challenged by relevant activities that provide continuity and reinforce learning in contexts that engage the full range of pupils. The curriculum meets the particular needs of specific groups and individuals and offers personalised programmes for pupils with specific needs. Provision for communication, numeracy and ICT is planned well and firmly embedded into the experience of all pupils. There is good provision to enable pupils to learn about sustainability and develop an understanding of the role they and others play in society and in the world. Provision for Welsh language and the Welsh dimension enables pupils to make good progress. Enrichment opportunities are varied and

there is a high take-up by pupils.

Unsatisfactory learning experiences

The curriculum has some significant aspects that need improvement. Learning experiences do not meeting the needs of pupils, or particular groups of pupils fully and pupils are not challenged to engage with learning in order to make the progress expected. The school does not extend pupils' communication, numeracy and ICT skills, confidence and knowledge well enough. There is a poor match between pupils' learning needs and abilities and the work they do in lessons and/or in the range and level of courses that the school provides. Pupils do not have enough opportunities to learn about Wales and the Welsh language and/or sustainable development and global citizenship. The enrichment programme covers a very small range of activities and/or very few pupils take part.

2.2 Teaching

2.2.1 range and quality of teaching approaches

2.2.2 assessment of and for learning

Issues in inspecting the quality indicator

The focus should be on the impact of teaching on learning and not on the use of a particular process in isolation from its impact.

2.2.1: the range and quality of teaching approaches

Inspectors should evaluate the extent to which teachers:

- have good, up-to-date subject knowledge;
- have high expectations of all pupils;
- plan effectively and have clear objectives for taught sessions and other learning experiences;
- use a range of teaching and training methods and resources which interest pupils and stimulate and challenge them to achieve highly;
- are themselves good language models;
- establish good working relationships that foster learning;
- manage pupils' behaviour effectively;
- use learning support staff effectively; and
- are successful in providing demanding work to meet the needs of all pupils, for example those with SEN and those who are more able and talented.

2.2.2: assessment of and for learning

Inspectors should evaluate whether pupils regularly review their own learning, understand their progress and are involved in setting their learning targets. You should evaluate:

- how well oral feedback and marking enable pupils to know how well they are

doing and what they need to do to improve;

- whether staff consistently encourage pupils to take note of feedback;
- how well the feedback develops pupils' ability to assess their own and their peers' performance; and
- whether assessment information informs future planning.

You should evaluate the extent to which the school and teachers:

- analyse assessment findings, including National Curriculum as well as other assessments;
- provide clear, systematic, manageable, consistent and useful records on each pupil;
- use records effectively to track pupils' progress, compare outcomes with benchmarks and intervene in individual cases if necessary;
- produce reports on pupils that are clear, consistent and informative, and set out areas for improvement;
- enable pupils to contribute to the contents of reports, where appropriate;
- help parents/carers to understand procedures and have access to records and reports relating to their children; and
- encourage parents/carers to respond to reports on progress.

Good teaching

Most teaching ensures pupils are motivated and engaged and secures pupils' good progress and learning. Teachers and other adults have wide and detailed subject knowledge and use a range of approaches and activities to inspire and challenge most pupils. Teachers make thorough, skilful and imaginative use of resources, including technology to enhance learning. Adult support is well focused and makes a significant contribution to the quality of pupils' learning. Detailed feedback to pupils, both orally and through marking, enables them to know how well they are doing and what they need to do to maintain good progress. Pupils' progress and wellbeing are tracked effectively across the school at individual, group and subject levels or areas of learning, where appropriate. As a result, teachers and other adults plan lessons well to meet pupils' learning needs. Parents/carers are kept well informed about their children's achievements, wellbeing and development.

Unsatisfactory teaching

Teaching does not enable pupils to learn well. Too much teaching fails to engage and stimulate pupils or promote their learning and progress. Teachers and other adults do not manage pupils' behaviour well enough. A significant minority of teachers have inadequate subject knowledge and/or a poor understanding of how to meet pupils' learning needs. The work of teachers and other adults lacks focus and fails to support the needs of pupils. Assessment takes too little account of pupils' prior learning and teachers and adults do not have a clear enough understanding of pupils' needs. The school does not provide pupils with enough information about their progress and/or how they can improve. Many parents/carers do not receive enough information about their child's progress and development.

2.3 Care, support and guidance

2.3.1 provision for health and wellbeing including spiritual, moral, social and cultural development

2.3.2 specialist services, information and guidance

2.3.3 safeguarding arrangements

2.3.4 additional learning needs

Issues in inspecting the quality indicator

The main focus in this quality indicator should be on the impact of care, support and guidance on pupils' standards and wellbeing rather than on the procedures and arrangements. In particular, inspectors should evaluate how well the arrangements have a beneficial effect on vulnerable pupils. In evaluating care, support and guidance, there should be a clear link to the judgements about standards and wellbeing.

2.3.1: provision for health and wellbeing, including spiritual, moral, social and cultural development

Inspectors should evaluate and report on whether the school has appropriate policies and arrangements for promoting **healthy living** and pupils' **wellbeing**. The main focus will be on considering how well the school helps pupils to achieve emotional and physical health and wellbeing. In looking at this quality indicator, it is important that you consider the views of pupils and parents/carers.

You should consider whether the school has appropriate arrangements to encourage pupils to be healthy, including how well the school provides for the physical development of pupils. This depends upon proper nutrition, sufficient exercise, appropriate hygiene, safety and healthy choices. You should also look at the school's provision for sex and relationships education and education about substance misuse.

Inspectors should report on obvious breaches of health and safety legislation under this quality indicator.

You should evaluate the arrangements for dealing with harassment and bullying. This should include the school's arrangements for helping pupils to manage their feelings and develop self-awareness and self-respect. Inspectors should check that pupils know whom to approach if they have a concern. You should inspect the school's personal and social education provision. You should also evaluate the provision for improving pupils' own learning, working with others and problem solving.

You should judge how well pupils are involved in and enjoy the life of the school and whether the school promotes good behaviour and attendance.

In evaluating provision for **spiritual development** inspectors should consider whether pupils have opportunities to:

- develop a sense of curiosity through reflection on their own and other people's lives and beliefs, their environment and the human condition;

- consider life's fundamental questions with reference to the teachings and practices of religions as well as from their own experience and viewpoint; and
- reflect on their own beliefs or values in the light of what they are studying in religious education and other subjects.

In evaluating **moral development** you should consider whether the school:

- fosters values such as honesty, fairness, and respect for truth and justice; and
- promotes principles that help pupils to distinguish right from wrong.

In evaluating **social development** you should consider if the school encourages pupils from different groups to:

- take responsibility, show initiative and develop an understanding of living in a community;
- discuss and agree group rules;
- learn how to relate to others and take responsibility for their own actions;
- contribute to the local community, including through regular extra-curricular activities; and
- contribute to decision-making, for example through the school council.

In evaluating **cultural development** you should consider whether the school encourages pupils to engage with the arts, sports and other cultural activities through their studies and extra-curricular activities.

Acts of worship and assemblies can play an important part in spiritual, moral, social and cultural development but they are not a pre-requisite. You should inspect acts of **collective worship** in all schools that do not provide denominational education. You should consider acts of collective worship in their own right and in the context of planning over a period of time. In relation to statutory requirements for collective worship, you should only report on instances where the school does **not** comply with these.

2.3.2: specialist services, information and guidance

Inspectors should evaluate how well:

- the school provides individual support on educational and other issues;
- the school provides access to a wide range of information for pupils;
- teachers fulfil their responsibilities for guidance;
- pupils make use of professional support both from within the school and from specialist services; and
- the school liaises with specialist agencies such as the police, health, psychological, counselling and social services.

Inspectors should assess the coherence and effectiveness of the provision for personal and specialist support. A carefully-structured and co-ordinated guidance programme should take account of the Framework for Personal and Social Education.

2.3.3: safeguarding arrangements

The inspectorate reports on whether the arrangements for safeguarding children and/or vulnerable adults are appropriate. The inspectorate expects all schools to comply with best practice. References to the legislation that governs this area are included in Annex 3.

Inspectors will need to ascertain whether the school has appropriate policies and procedures in place in respect of safeguarding.

A policy should set out the following:

- the named senior member of staff's responsibilities for dealing with child protection and safeguarding issues and providing advice/support to other staff;
- clear procedures that reflect the All Wales Child Protection Procedures 2008; and
- arrangements for training.

If the school has an appropriate policy and procedures, the report will state: 'The school has an appropriate policy and has procedures for safeguarding.'

If the school does not have appropriate safeguarding policy or procedures, the judgement for 2.3 (care, support and guidance) should be unsatisfactory. In these cases, the report will state: 'The school does not have an appropriate policy for safeguarding. Procedures for dealing with safeguarding issues are not fully developed.'

You will need to ascertain whether the school has effective recruitment, disciplinary and reporting arrangements to ensure the suitability of staff and volunteers. These arrangements should meet legal requirements. There is no legal requirement for staff appointed prior to 2002 to have a current Criminal Records Bureau check or for the school to carry out three yearly checks on staff. However, inspectors should confirm that the school has carried out appropriate checks against List 99 and on written references and qualifications.

2.3.4: additional learning needs (ALN)

Inspectors should evaluate the effectiveness of the school's identification and monitoring arrangements for ALN and evaluate whether pupils with ALN receive the short or long-term support they need. For an explanation of ALN, see Annex 6.

You should consider:

- the extent to which the school offers pupils with ALN access to all areas of the curriculum, including the subjects of the National Curriculum unless disapplication is specified in individual statements;
- whether grouping and support systems meet the range of needs without adversely affecting the breadth, balance and continuity of the pupils' curriculum;
- how well the school integrates, supports and provides for pupils with ALN within mainstream classes and in special groups, so that they can achieve appropriate standards;
- the quality of support for pupils with emotional and behavioural difficulties so

that they can achieve the objectives set in individual education plans and, where appropriate, develop their independence as pupils;

- how consistently the school conducts regular reviews of progress, including annual reviews;
- whether assessment, recording and reporting procedures satisfy statutory requirements;
- whether the school consults parents/carers regularly; and
- the adequacy and usefulness of contributions from learning support assistants, support teachers, educational psychologists, medical, paramedical and nursing specialists and other external agencies.

Good care, support and guidance

Effective arrangements exist to support pupils' health and wellbeing as well as to encourage their involvement in their school or wider community. These arrangements contribute well to pupils' development and wellbeing and support their learning effectively. Learning experiences promote pupils' personal development well, including their spiritual, moral, social and cultural development. The school is pro-active in building on collaborative working with other key agencies to reduce the risk of harm to pupils. Clearly targeted support for groups of vulnerable pupils has resulted in significant improvement, for instance in attitudes, behaviour, confidence, achievement or relationships. Induction programmes are tailored well to meet the needs of different groups of pupils. The school identifies pupils' learning needs when they join and ensures that these needs are met. The school fully meets safeguarding regulations.

Unsatisfactory care, support and guidance

Care and support systems have some shortcomings, which mean that particular individuals or groups of pupils do not thrive in their learning, development or wellbeing. The school does not promote all pupils' spiritual, moral, social or cultural development. Not all pupils have access to a range of support services. The quality of advice and guidance pupils receive is uneven. Induction programmes do not fully meet the needs of different groups of pupils. A few records, policies and procedures are missing or out of date. The school does not meet or only partly meets safeguarding regulations. Individuals' learning needs are not identified early or accurately enough and/or the school does not make adequate provision for their needs.

2.4 Learning environment

2.4.1 ethos, equality and diversity

2.4.2 physical environment

Issues in inspecting the quality indicator

2.4.1: ethos, equality and diversity

Inspectors should judge how well the school:

- establishes a school ethos that is inclusive;
- takes into account and values the diversity of pupils' backgrounds and acts appropriately on this information;
- offers equal access to the curriculum and challenges stereotypes in pupils' attitudes, choices, expectations and achievements;
- develops tolerant attitudes and ensures that all pupils and staff are free from harassment;
- promotes the prevention and elimination of oppressive behaviour including bullying, sexism, racism and homophobia;
- deals with specific instances of discrimination or oppressive behaviour through its policies and procedures; and
- has taken reasonable steps to ensure that current and prospective pupils with disabilities do not suffer less favourable treatment in school or in respect of admissions and exclusions.

You should check whether the school has appropriate equality schemes and action plans that meet statutory requirements.

You should evaluate whether the school:

- has a well-understood policy that promotes equal opportunities and human rights;
- has an action plan that ensures delivery of the policy;
- provides appropriate equality training for staff; and
- monitors and addresses any related issues or complaints that arise.

2.4.2: physical environment

Inspectors should judge whether:

- there are enough resources that are well matched to pupils' needs;
- accommodation provides a stimulating and well-maintained learning environment to support teaching and learning;
- accommodation is sufficient for the number of pupils and the activities offered;
- toilet and changing facilities are appropriate; and
- the school buildings and grounds are well maintained.

Good learning environment

The school is an inclusive community, where pupils receive equal access to all areas of the school's provision. There is a clear emphasis on recognising, respecting and celebrating diversity. An ample supply of good quality resources is well matched to pupils' learning needs. Full use is made of relevant and available resources in the community to supplement and enrich the curriculum. The accommodation is of good quality and is well maintained.

Unsatisfactory learning environment

Some pupils do not have access to all areas of the school's provision. There is not enough emphasis on recognising, respecting and celebrating diversity and/or there are instances of discriminatory behaviour and harassment. There are not enough resources to support teaching and learning. Some parts or more of the school's

buildings, facilities and/or outdoor areas are in a poor state of repair and not fit for purpose.

Key Question 3: How good are leadership and management?

In coming to an overall judgement for this key question, inspectors will give equal weight to each quality indicator.

3.1 Leadership

3.1.1 strategic direction and the impact of leadership

3.1.2 governors or other supervisory boards

3.1.3 meeting national and local priorities

Issues in inspecting the quality indicator

3.1.1: strategic direction and the impact of leadership

Inspectors should consider the extent to which leaders have clear aims, strategic objectives, plans and policies that are focused on meeting pupils' needs. You should ask whether these plans are appropriately focused and whether they are being implemented and monitored in a timely way.

In evaluating the strategic direction and impact of the leadership you should judge:

- how well roles and responsibilities are defined and whether the spans of responsibility in senior and middle management teams are viable and balanced;
- the extent to which all staff understand and fulfil their roles in direct relation to specific strategic aims, plans and responsibilities;
- how effectively leaders manage their own time and prioritise activities responsively;
- whether project-management approaches are used effectively to deliver the business of the school;
- how efficiently meetings are run to focus on important issues of performance and core business and to generate clear action points which are subsequently carried out as agreed;
- whether the management and committee structures are coherent with the strategic direction of the school and address core issues;
- how well leaders use data to monitor performance and how sophisticated their systems thinking is;
- whether leaders communicate high expectations to those they manage;
- whether leaders agree and achieve challenging and realistic targets for themselves and others; and
- whether leaders negotiate and co-operate well with internal staff and outside agencies.

In evaluating the impact of leaders, inspectors should focus on the extent to which leadership and management are effective in sustaining high quality and improving provision and standards.

You should consider whether leaders:

- communicate their vision for the school well and explore how to achieve it, in collaboration with others;
- model and promote behaviours and values that contribute positively to creating a school ethos where pupils and staff feel valued;
- actively support and challenge everyone to do their best;
- build on shared understanding and distributed leadership to create a responsive, learning culture; and
- share convincingly with stakeholders and others in the school community a common mission to deliver education of the best quality.

You should evaluate the impact of leaders in the way they manage the performance of staff in order to help staff to improve their practice. You should also judge whether leaders and managers address issues of underperformance robustly and directly where necessary. You should judge whether performance management identifies individual and whole-school training and development needs clearly and whether these are prioritised appropriately and addressed fully. You may identify whether all staff are set targets for improvement that support the delivery of strategic aims in school development plans and other action plans. You should consider how performance management processes affect the quality of teaching and learning and pupil outcomes.

3.1.2: governors or other supervisory boards

Inspectors should judge how well the governing body fulfils its statutory obligations and takes full account of relevant legislation and guidance.

You should evaluate how well governors:

- understand their roles;
- are informed about the performance of the school and issues that affect it;
- provide a sense of direction for the work of the school;
- support the school as a critical friend;
- hold the school to account for the standards and quality it achieves;
- take reasonable steps to inform pupils, members of staff, parents/carers or any other person of the procedures if they wish to make a complaint or appeal; and
- make sure that complaints are dealt with promptly by disinterested parties.

3.1.3: meeting national and local priorities

Inspectors should evaluate how successful leaders and managers are in meeting national and local priorities such as the School Effectiveness Framework, and the Foundation Phase.

Good leadership

All staff share a common vision, values and purpose. Corporate management, committee structures and systems thinking support high standards of business delivery across the whole of the school's work. Leaders communicate high expectations for securing improvement and challenge staff positively to good effect. Leaders and governors use relevant management information about performance to address issues of underperformance and to set objectives and targets that are

strategic priorities. Governors show determination in challenging and supporting the school in bringing about necessary improvements. Policies and initiatives, including those that meet local and national priorities, are implemented consistently

Unsatisfactory leadership

Leaders and managers do not communicate well and do not provide clear direction for staff. Their vision does not focus enough on improving learning and wellbeing outcomes for pupils and, as a result, they have been largely unsuccessful in making and sustaining improvements. Lines of accountability are blurred. Policies and initiatives are not implemented consistently. Leaders and governors do not have enough relevant information about the school's performance, and/or fail to use it to inform the school's direction, identify underperformance or respond to national and local priorities. The governing body has too little impact on the direction and work of the school and does not challenge the school enough to bring about improvement. The governing body does not meet all its statutory duties.

3.2 Improving quality

3.2.1 self-evaluation, including listening to learners and others

3.2.2 planning and securing improvement

3.2.3 involvement in networks of professional practice

Issues in inspecting the quality indicator

3.2.1: self-evaluation, including listening to learners and others

The processes of self-evaluation and development planning should be a regular part of the school's working life. The focus should be on identifying priorities for improvement, monitoring provision and assessing outcomes. The process should involve rigorous review of all aspects of school life and how these impact on standards pupils achieve.

Inspectors should ascertain whether the school is managed on the basis of an accurate assessment of its strengths and weaknesses. It is unlikely that the quality of leadership and management can be good if the school does not have effective self-evaluation procedures.

You should consider whether the school's self-evaluation process:

- is embedded in strategic planning and draws on regular quality assurance procedures;
- involves thorough evaluation and monitoring of data on standards and the quality of education including consideration of trends and progress over time;
- draws on first-hand evidence of the quality of teaching and learning;
- involves all staff in assessing outcomes and their own performance;
- encourages pupils to share their views and raise issues;
- takes account of the views of staff, parents/carers and other stakeholders;
- draws upon reviews by external agencies, where appropriate;
- leads to development plans that are monitored against clear targets and success

criteria; and

- results in improvement in standards and quality.

3.2.2: planning and securing improvement

In evaluating the effectiveness of planning for improvement, inspectors should consider the extent to which leaders and managers:

- use information from self-evaluation to set priorities and appropriately challenging targets for improvement;
- have prioritised the matters they wish to improve;
- implement sound strategies likely to bring about the desired improvements; and
- ensure that all staff play their part in implementing the strategies.

You should consider how leaders and managers ensure that priorities are supported by the allocation of resources. You should evaluate the extent to which leaders and manager define actions for improvement in specified and realistic timescales and allocate responsibility for their delivery.

You should also evaluate whether actions taken have had a positive effect and, where relevant, have led to measurable improvements in standards.

Inspectors should consider how the school has responded to the recommendations of the last inspection report and whether the school's actions have led to improvements in standards and quality. You may report on excellent or unsatisfactory progress.

3.2.3: involvement in networks of professional practice

Inspectors should evaluate how well the school is developing as a strong learning community and achieving a culture of collaboration within and across schools. You should consider the arrangements to support the active engagement of all staff in increasing their professional knowledge, understanding and skills, including participation in whole-school professional learning experiences. Taking into account your judgements under 2.2 on teaching, you should judge to what extent the staff:

- are supported by continuous professional development;
- acquire new knowledge and skills to develop innovative approaches to learning and teaching;
- are involved in direct classroom observation;
- share good practice with other teachers and adults within and beyond the school;
- reflect on their own practice; and
- evaluate the impact of professional learning on their pupils' learning and wellbeing.

As part of the School Effectiveness Framework, inspectors should expect schools to collaborate in identifying and delivering improvement strategies and shared learning. You should consider the school's involvement in professional learning communities within and beyond the school and the contribution this involvement makes to building the school's capacity for continuous improvement. These communities might include local networks within the local authority consortia and among families of schools.

Good quality improvement

Leaders and managers have an accurate picture and understanding of the school's strengths and weaknesses. They routinely make good use of a range of rigorous monitoring activities. Performance data is consistently used to monitor progress and plan for improvement. There is a sustained focus on achieving progress against the school's priorities. The school regularly seeks the views of pupils, parents/carers and the broader community. The school has a good track record of maintaining or improving standards and provision. A well-established professional learning community within the school enables staff to develop and share their professional knowledge. There are effective networks of professional practice with other schools and partners.

Unsatisfactory quality improvement

Self-evaluation processes lack rigour. The school does not identify areas for improvement fully or accurately and, as a result, staff do not focus on the most important areas for development. Self-evaluation of performance is not sufficiently wide-ranging and does not draw well enough on performance data and other evidence from all key partners. The self-evaluation process does not take enough account of pupils' views. Improvements over recent years are minimal and, consequently, pupils do not make enough progress. The school does not do enough to promote best practice among its own staff or with the learning community.

3.3 Partnership working

3.3.1 strategic partnerships

3.3.2 joint planning, resourcing and quality assurance

Issues in inspecting the quality indicator

3.3.1: strategic partnerships

Inspectors should evaluate how strategically the school works with its partners to improve pupils' standards and wellbeing. Partners include:

- parents/carers;
- pre-school settings;
- partner secondary schools;
- other schools and post-16 providers;
- the local authority education services for children and young people;
- the community;
- local employers;
- a range of multi-disciplinary agencies and voluntary organisations; and
- initial teacher training institutions.

You should consider whether the school is clear about its role and responsibilities within any formal partnerships. You should focus on how well the school uses strategic partnerships to help to build its capacity for continuous improvement.

You will need to consider the way that the school ensures that there is good liaison, trust and clear communication between partners. For example, you may inspect the way that staff enable community partners to contribute to the aims of the school.

3.3.2: joint planning, resourcing and quality assurance

Inspectors should consider how well the school collaborates with partners to deliver coherent programmes and choices. You should establish if the school has effective structures and processes which contribute well to joint working practices. You should consider how staff work with partners to plan, manage, and quality assure provision, for example through pooling their funding and resources. Where appropriate, you should also consider how well the school works with other partners and agencies in tackling the link between disadvantage and underachievement through joint agency collaboration.

You should take account of the quality of transition plans and determine how effectively the school works with its partner schools:

- to develop continuity in learning and wellbeing;
- to moderate and quality assure assessment of pupils' work and courses; and
- to use shared resources effectively.

Where there is regular movement of pupils to or from the school as part of partnership activity, you should consider how safely and efficiently the school arranges these day-to-day activities. You should consider the impact of partnership working on improving outcomes, particularly achievement.

Good partnership working

Partnership activities make a strong contribution to widening the range of choices for pupils and this has benefits for their standards and wellbeing. The school takes a leading role in developing joint working practices and engenders trust and good communication between partners. Staff focus well on joint planning and resourcing as well as building capacity for continuous improvement. The school has strong links with the community, good liaison and communication with parents/carers and works effectively with other agencies enabling staff to deliver joined-up programmes that improve pupils' outcomes and wellbeing.

Unsatisfactory partnership working

Some joint planning takes place but partnerships are superficial and the school does not always communicate effectively with all agencies and partners. The proportion of pupils who actually benefit from partnership working is small. The school has some links with the community but these make limited contribution to developing positive pupil attitudes to work. Parents/carers receive some information about pupils' progress but they are not consulted about the school's or the pupils' future development.

3.4 Resource management

3.4.1 management of staff and resources

3.4.2 value for money

Issues in inspecting the quality indicator

Normally, the overall judgement on this quality indicator should not be higher on the scale than the judgement on Key Question 1 but it may be lower. When inspecting the management of resources, inspectors will judge how well the school plans and carries out effective strategies to ensure and monitor that the school delivers value for money in the way it manages resources.

3.4.1: management of staff and resources

Inspectors should judge how efficiently and effectively leaders and managers plan and carry out strategies to manage staff and resources. You may consider whether there are any clear management features that contribute to or detract from the efficient management of resources.

You should consider how well leaders and managers:

- ensure that the school is appropriately staffed to teach the curriculum effectively;
- deploy staff to make best use of their time, expertise and experience;
- identify and meet the development needs of all staff through appraisal and performance management systems;
- make effective use of teachers' planning, preparation and assessment time;
- employ appropriate strategies and processes to meet the statutory requirements of the National Agreement on 'Raising Standards and Tackling Workload' (January 2003);
- manage and deploy teaching assistants and non-teaching staff;
- provide the best standards of accommodation possible within the school's budget; and
- ensure that pupils have enough appropriate learning resources.

You should concentrate less on the detail of the financial budgets than on the extent to which the school's spending decisions and broad financial planning are based on priorities for expenditure on improvement over time.

You should consider the extent to which leaders and managers:

- know the costs of existing programmes and activities, keep them under review and question whether they are cost-effective, for instance in relation to non-viable class sizes;
- identify priorities and areas for development and allocate resources appropriately and according to clear criteria to reflect the school's agreed objectives;
- have systematic and accurate budgeting arrangements, including appropriate arrangements for contingencies; and
- have established a sensible balance between the responsibilities undertaken by governors and those delegated to the headteacher and staff.

3.4.2: value for money

When inspecting value for money, inspectors should take into account the effectiveness of the school in achieving good or excellent outcomes for pupils, in Key Question 1. However, if resources are poorly managed, even if outcomes are good, the overall judgement should reflect the areas for improvement identified.

You should evaluate:

- the effectiveness of the provision in securing appropriate outcomes for pupils overall;
- the extent to which the school successfully balances the effectiveness of its provision against costs, including staffing costs; and
- the extent to which it makes good use of the funding it receives.

You should state in the report that the school offers excellent, good, adequate or unsatisfactory value for money in terms of the use made of the budget allocated to the school.

Good resource management

Staffing and financial resources are managed and deployed effectively to support learning improvement. The school deploys teaching and support staff well and they have the knowledge and expertise to cover all aspects of the school's curriculum. The impact of resources on teaching and learning is kept under review and future needs are planned for. The school's spending decisions relate well to priorities for improvement and the benefit of the pupils. The use of shared resources through efficient partnership work or federation provides good value for money because it contributes to improved and generally good outcomes for pupils in aspects which the school alone could not provide. Overall, outcomes for pupils are good. There are no unsatisfactory standards or inadequate aspects to provision.

Unsatisfactory resource management

Financial resources are not fully linked to priorities for action and whole-school development plans. The school does not have enough qualified specialist and experienced teaching and support staff with the full range of knowledge and expertise to cover all aspects of the school's curriculum. The school does not deploy or monitor resources efficiently or plan to improve resources well enough to ensure value for money. While outcomes may be unsatisfactory, adequate or better, there are shortcomings in the way that resources are deployed and applied by managers. There is no or too little efficient pooling of resources with other agencies or providers through joint partnership activities or federation.

Annex 1: Common Inspection Framework

K Q	Quality indicators	Aspects
1 O U T C O M E S	1.1 Standards	1.1.1 results and trends in performance compared with national averages, similar providers and prior attainment 1.1.2 standards of groups of learners 1.1.3 achievement and progress in learning 1.1.4 skills 1.1.5 Welsh language

Annex 3: Regulations and guidance

The documents listed below are a combination of regulations, measures and circulars and are provided as a reference for inspectors. The list is not exhaustive and it is not intended to be a checklist for inspectors to review a school. They are provided only as a resource for an inspection team should the need arise. Inspectors need to be aware that regulations and measures are statutory documents.

* All of the documents are relevant to Key Question 1 as they define outcomes for pupils.

Questions		
1	I feel safe in my school.	
2	The school deals well with any bullying.	
3	I know who to talk to if I am worried or upset.	
4	The school teaches me how to keep healthy	
5	There are lots of chances at school for me to get regular exercise.	
6	I am doing well at school.	
7	The teachers and other adults in the school help me to learn and make progress.	
8	I know what to do and who to ask if I find my work hard.	
9	My homework helps me to understand and improve my work in school.	
10	I have enough books, equipment, and computers to do my work.	
11	Other children behave well and I can get my work done.	
12	Nearly all children behave well at playtime and lunch time.	

Annex 5: Parents'/carers' survey

Questions		Please tick one box				
		Strongly agree	Agree	Disagree	Strongly disagree	Don't know
1	Overall I am satisfied with the school.					
2	My child likes this school.					
3	My child was helped to settle in well when he or she started at the school.					
4	My child is making good progress at school.					
5	Pupils behave well in school.					
6	Teaching is good.					
7	Staff expect my child to work hard and do his or her best.					
8	The homework that is given builds well on what my child learns in school.					
9	Staff treat all children fairly and with respect.					
10	My child is encouraged to be healthy and to take regular exercise.					
11	My child is safe at school.					
12	My child receives appropriate additional support in relation to any particular individual needs'.					
13	I am kept well informed about my child's progress.					
14	I feel comfortable about approaching the school with questions, suggestions or a problem.					
15	I understand the school's procedure for dealing with complaints.					
16	The school helps my child to become more mature and take on responsibility.					
17	My child is well prepared for moving on to the next school.					
18	There is a good range of activities including trips or visits.					
19	The school is well run.					

Annex 6: Pupils with additional learning needs

Pupil and other stakeholder views are sources of evidence for all key questions. Inspectors must ensure that evaluation of the ten quality indicators includes the achievements, attitudes and wellbeing of all pupils, taking particular account of outcomes for pupils with additional learning needs (ALN).

The term ALN applies to pupils of all ages, adults and children, whose learning needs are additional to the majority of their peers. Pupils with ALN include those who:

- are children and young people with special educational needs;
- are disabled;
- have medical needs;
- have emotional, social and behavioural difficulties and/or mental health needs;
- are more able and talented;
- are learning English as an additional language; and
- have basic skills needs.

Pupils are more likely to have ALN when they also belong to vulnerable groups including:

- minority ethnic groups;
- refugees/asylum seekers;
- migrant workers;
- looked-after children;
- young parents/carers and pregnant young women;
- young offenders;
- adults, children and families in difficult circumstances;
- pupils at risk of homophobic bullying;
- young carers;
- pupils educated otherwise than at school; and
- gypsies and travellers.

Annex 7: Reporting on performance data in primary schools

Reporting on performance data in primary schools

This guidance refers to end of key stage 1 National Curriculum assessments. The inspectorate will provide further guidance on the assessment of Foundation Phase Outcomes before the summer term 2012.

Key Question 1: How good are outcomes?

1.1 Standards

The main focus should be on achievement rather than attainment. You should give more weight to those analyses that present comparisons with similar schools.

Using the range of analyses

It is important to consider the picture given by the whole range of analyses available over a period of time, usually three years. You should not base conclusions on one year's performance, on one individual indicator or on only one type of analysis. It is important to look at the whole picture.

You should avoid 'cherry picking' data for inclusion as a good feature. The criteria used for the listing of good features and areas for improvement in relation to National Curriculum assessments must be balanced and objective. For example, if being in the first quarter for one particular indicator is listed as a good feature, then it follows that being in the fourth quarter for another indicator should be a shortcoming. Generally, good features and areas for improvement should refer to a wide range of indicators or trends in key indicators over time.

Reports on performance in National Curriculum assessments should start with the performance of the youngest pupils. In primary schools reports should cover Foundation Phase first followed by key stage 2.

1.1.1 results and trends in performance compared with national averages, similar schools and prior attainment

a Comparison to national averages to identify trends in performance over at least three years.

Comparison to national averages should be used to identify whether a school's rate of progress is better than the national improvement and to identify relative strengths or areas for development in trends in different indicators.

These comparisons should be made over at least three years since data trends over this period carry more weight than performance in a single year. Reports must contain a comment on trends over the previous three years and whether performance is generally improving, fluctuating or declining. This should be considered and reported on.

In both key stages you should always report on trends in performance on the Core Subject Indicator (CSI) and on any good features or areas for development in separate core subjects that influence the CSI. You should also always mention trends in performance on the separate subjects at expected level plus one.

b Comparison with schools that face similar challenges

You should give more weight to those analyses that present comparisons with similar schools. You should consider the school's performance compared to similar schools on the free-school-meals (FSM) benchmark quartiles and also compared to schools in the same family in the All Wales Core Data packs produced by the Welsh Assembly Government.

When using the free school meals benchmarks you should consider how close the school lies to the FSM band borderlines. If it is close to a borderline it may have more in common with the schools in the neighbouring benchmark group. You should also consider whether the school has changed FSM band during the three years for which the data is presented. These factors could make the school's benchmark position appear unduly favourable or unfavourable. In either case, you should compare the school's performance with the benchmark quarters in the next free school meal group.

You should also consider and report on the school's performance relative to other schools in its family.

c Comparison to prior attainment of the cohort

You should consider any analyses that show the progress made by pupils from the previous key stage. In evaluating pupils' progress at the end of the Foundation Phase and key stage 2 you may consider whether their progress is appropriate for their ability, interests and previous performance.

However it is important that any value added data is interpreted in the light of performance on other analyses. If there is a discrepancy between positive value added figures for schools whose performance does not compare well to other schools in their family or on the free school meals (FSM) benchmark quartiles then this may be caused by significant under attainment at a previous key stage. You should comment on this and investigate the actions that the school has taken to help pupils to catch up.

d Performance of different groups of pupils

You should consider the attainment of particular groups of pupils including the performance of boys and girls, pupils entitled to FSM and those with ALN. You should only comment on any gender differences if the gap in attainment is significantly different to national trends.

In special units, and for pupils with ALN in mainstream schools, judgements about achievement for these pupils should take account of their achievements in relation to achieving agreed learning goals.

You should also consider the progress made by different groups of learners such as pupils with special educational needs, pupils entitled to FSM, looked-after children, those with English as an additional language, any learners from minority ethnic groups and gypsy and traveller children.

Small schools

Specific issues may arise in the inspection of small schools. A small year group can cause fluctuations year on year since each pupil counts for a significant proportion of the cohort. This is just as likely to improve performance as to depress it and is not a reason for under attainment. However, small primary schools could change FSM benchmark quarters more often than other schools and inspectors should allow for this in writing any commentary. But to be in the fourth quarter year on year is an important shortcoming in these schools just as it is for larger schools.

The size of a school is one of the criteria in creating the families of schools. In small schools, therefore, it is particularly important to also compare the school's performance with others in its family.

Overall judgement on standards

It should be assumed that there will be a close relationship between the standards pupils reach in lessons and the school's performance in National Curriculum assessments. Where this is not the case, inspectors should investigate and, if necessary, explain clearly the reasons for any apparent contradictions. You should not, for example, report that standards are excellent or good in a school that is well into the third or in the fourth quarter for most indicators or whose performance is consistently among the lowest in its family of schools, unless the report provides a clear and valid explanation for the apparent contradiction.

Being in the highest quarter does not necessarily imply an excellent feature. It merely means the school is in the top 25% of schools. In any one year, a few schools are in the top quarter for all three core subjects in either key stage. However, only a very small percentage of schools are in the top quarter for all, or nearly all, indicators for three consecutive years. In these cases you should consider, in the light of other evidence, whether these are excellent features.

Similarly, only a very few primary schools are in the bottom quarter for all three core subjects and the Core Subject Indicator in any one year. An even smaller proportion of schools are in the bottom quarter for all, or nearly all, indicators for three consecutive years. In this case you should give serious consideration to judging performance to be unsatisfactory.

Annex 8: Inspecting resourced provision in schools

The following represents guidance on the inspection of resourced provision based in mainstream schools. The guidance outlines the course of action to be taken according to the category of the resourced provision in question.

Category 1: Resourced provision that is part of a mainstream school

If the pupils are on the roll of the school, you should inspect the unit as part of the mainstream school. It does not matter who funds the provision, or who pays the staff or whether the pupils come from within or beyond the normal catchment area.

Category 2: Resourced provision that is part of a special school but based on the mainstream school premises. Pupils who attend this provision unit have dual registration

You should inspect the outcomes achieved by pupils in the resourced provision. However, you should not evaluate the educational provision or leadership, unless the head of the mainstream school employs and manages the teachers in the resourced provision. Inspection of provision and leadership will be undertaken as part of the inspection of the special school.

Category 3: Resourced provision that is part of a special school but based on mainstream school premises. Pupils do not have dual registration

You should **not** inspect this sort of provision as part of the mainstream school. The inspection of this provision will be undertaken as part of the inspection of the special school.

Category 4: The resourced provision is registered as a PRU

You should **not** inspect this provision, as a separate inspection will be undertaken. Estyn may also inspect the EOTAS provision during the inspection of the LA. However, if some pupils have dual registration, the principles apply as in the category 2, above.

Category 5: The resourced provision is on the school premises and is similar to, but does not have registration as a PRU

You should **not** inspect this provision when any of the following features apply:

- the mainstream school does not manage the provision;
- pupils are not on the roll of the host school;
- pupils may be on the roll of other schools;
- pupils take part in alternative curriculum arrangements that are not funded by the school;
- the local authority directly funds and manages the provision; and/or
- the local authority funds external providers to run the provision.

Please notify the Estyn Inspection Co-ordinator on 02920 446 446 of the existence of resource provision that falls into category 5 above.

Annex 9: Guidance on follow-up activity

Background

During all core inspections, the inspection team will consider whether the school needs any follow-up activity.

There are five types of follow-up activity:

- 1 Excellent practice case study**
- 2 Local authority monitoring**
- 3 Estyn monitoring visit**
- 4 Significant Improvement**
- 5 Special Measures**

The first follow-up activity involves action by the school to produce an excellent practice' case study for dissemination by Estyn. The second involves a report to Estyn from the relevant local authority. The last three involve visits from Estyn inspectors. Apart from the excellent practice case study, follow-up activity involves increasing levels of intervention in proportion to need.

The last two follow-up activities are formal categories that apply to schools causing concern as defined by the Education Act 2005 and any associated circulars. The Minister for Children, Education and Lifelong Learning and Assembly officers will be informed when schools are placed in these categories and kept informed, following monitoring inspections by Estyn, of subsequent progress as required by the legislation.

1 Excellent practice case study

If a school gains an excellent judgement for at least one of the two overall judgements then the inspection team will have identified one or possibly more examples of sector-leading practice at the school that warrant wider dissemination. This possibility should be discussed during team meetings, when sector-leading practice will have been a key consideration in reaching any excellent judgement.

In such cases, the reporting inspector will invite the school to prepare a written case study of no more than 600 words, accompanied by any appropriate illustrative material if appropriate¹, describing the sector-leading practice. It should be made clear to the school that the inspectorate reserves the right to edit the content and presentational style. The case study should describe the context and background of the best practice, the exact nature of the strategy or activity and what the impact has been on outcomes for the pupils. The case study must be one that can be held up as sector-leading practice to the scrutiny of other schools in the same sector or possibly other similar sectors.

¹ Photographic images of children and young people require the necessary clearance.

The case study should be sent to Estyn within four weeks of the end of the on-site part of the inspection. The case study should be accompanied by a letter or email showing that it has been approved for use by the inspectorate and signed off by the senior leader of the school.

The school may at a later stage also be invited to showcase their sector-leading practice at one of Estyn's best practice conferences. The example might be disseminated through various media, including the inspectorate's website, newsletters, best practice publications for the sector, in the Annual Reports of Her Majesty's Chief Inspector (HMCI) and at best practice events. Case studies will normally have a publication life of three years, after which they will be removed from the Estyn website, to ensure that they remain topical and at the forefront of excellent practice.

2 Local authority monitoring

The least intensive follow-up activity is required when the school is identified as a generally good school, but it may have a small number of specific areas for improvement that require monitoring to ensure improvement.

In such cases, the two overall judgements for the school might be good, but a small number of key questions or quality indicators may be judged to be adequate, indicating some areas for improvement. This would include instances where there is a failure to meet statutory requirements that affects quality or standards.

If the school is judged to require local authority monitoring, the reporting inspector should tell the headteacher at the end of the inspection that the team has reached this judgement and use the form for schools requiring follow-up activity to write to HMCI and confirm the judgement.

Subject to moderation, the inspectorate will write a letter to the school, copied to the local authority, identifying the relevant areas for improvement. It is expected that the local authority will monitor progress against the areas for improvement identified in the letter and keep the Estyn local link inspector for that local authority informed. If the link inspector judges that insufficient progress has been made then the school may be subject to an Estyn monitoring visit.

3 Estyn monitoring visit

Normally, this level of activity will be required when at least one of the overall judgements for a school in a core inspection report is adequate, but the school is not causing concern to the extent of requiring placement in the legally defined categories of requiring significant improvement or special measures.

To receive this level of follow-up activity, key questions or quality indicators would be judged to be at least adequate. It would be possible that at least some key questions and quality indicators have been judged as good. However, the school would have some important areas for improvement that require monitoring.

If the school is judged to require an Estyn monitoring visit, the reporting inspector should tell the headteacher at the end of the inspection that the team has reached

this judgement and use the Form for schools requiring follow-up activity to write to HMCI and confirm the judgement.

Subject to moderation, the inspectorate will write a letter to the school, copied to the local authority, identifying the areas that require improvement and explaining that a small team of Estyn inspectors will visit the school to judge progress around a year later. The local authority will be invited to send an officer to join the monitoring team. If the team judges that insufficient progress has been made then the school may be judged to require significant improvement and be placed in this category as a result of the follow-up inspection.

The statutory basis for identifying schools causing concern

The definition of a school in need of special measures is in section 44 of the Education Act 2005. Section 44 (1) states:

For the purposes of the Part, special measures are required to be taken in relation to a school if:

- a) the school is failing to give its pupils an acceptable standard of education, and
- b) the persons responsible for leading, managing, or governing the school are not demonstrating the capacity to secure the necessary improvement in the school.

The definition of a school in need of significant improvement is in section 44 of the Education Act 2005. Section 44 (2) states:

For the purposes of this Part, a school requires significant improvement if, although not falling within subsection (1)² it is performing significantly less well than it might in all the circumstances reasonably be expected to perform.

Guidance for inspectors about schools causing concern

On every inspection, you should consider if the school is in need of special measures by considering:

- if the school is failing to give its pupils an acceptable standard of education; and
- if the persons responsible for leading, managing or governing the school are not demonstrating the capacity to secure the necessary improvement in the school.

Inspectors must consider if the school has the capacity to improve before coming to a judgement about whether it requires special measures.

If you conclude that the school does not require special measures, you should then consider whether the school is in need of significant improvement. You must consider:

- if the school is performing significantly less well than it might in all circumstances reasonably be expected to perform.

² Subsection 1 defines special measures

You and your team must report as you find, and be able to substantiate your judgements on the basis of sound evidence. Coming to a judgement that a school is in need of special measures or needs significant improvement is not an easy task, but it must **not** be avoided. If the evidence points to the conclusion that the school requires special measures or is in need of significant improvement, you must make that judgement.

4 Significant improvement

Schools in need of **significant improvement** are likely to have fewer important areas for improvement than schools in need of special measures. If you have seriously considered, but rejected, the judgement that the school is in need of special measures, it is highly likely that it will come into the category of schools requiring significant improvement.

You may find it helpful to consider the **school profile**, which draws together the corporate judgements of the team.

Question	Judgement
The school's current performance	
The school's prospects for improvement	
KQ1 Outcomes	
1.1 Standards	
1.2 Wellbeing	
KQ2 Provision	
2.1 Learning experiences	
2.1 Teaching	
2.3 Care, support and guidance	
2.4 Learning environment	
KQ3 Leadership	
3.1 Leadership	
3.2 Improving quality	
3.3 Partnership working	
3.4 Resource management	

While the school in this category may be just about providing an acceptable standard of education, it is important that you and your team consider if there is room for **significant improvement**. The guiding principle must be whether the school is performing significantly less well than it might in all circumstances be expected to perform.

You must give particular consideration to identifying the school as needing significant improvement if both overall judgements are judged adequate, particularly if one or more key question or quality indicator are judged unsatisfactory or all are judged adequate.

You should be aware that some schools in this category may have adequate as the overall judgements for all or most key questions, yet still be in need of significant improvement.

At all times, you should remember that the main emphasis in school inspections is on the standards pupils achieve. The issues identified above should be discussed as a matter of importance in team meetings. The starting point of these discussions would be that these circumstances signal important areas for improvement in the standards pupils achieve, the quality of education provided by the school and/or leadership and efficiency. Your discussions should take account of any mitigating factors to ensure the validity and reliability of judgements before coming to a decision that a school is in need of significant improvement.

In all circumstances, it is vital that you judge the work of the school in the context in which it is currently operating. Inspectors **should not** be unduly influenced by:

- recently prepared plans for improvement that have yet to be implemented; and
- the recent appointment of staff, such as a new headteacher.

This is because, in both cases, the effect or impact of improvements will not have taken place and you must judge outcomes rather than intentions.

Procedures to be followed if the school is in need of significant improvement
--

If the school is judged to be in need of significant improvement, you should take the following steps:

- telephone and inform an inspection co-ordinator at Estyn (tel. 029 20 446446) before the school is told of the judgement;
- tell the headteacher at the end of the inspection that the team has reached the judgement that the school is in need of significant improvement;
- use the Form for schools requiring follow-up activity to write to HMCI and confirm the judgement already given by telephone that the school is in need of significant improvement; and
- send the draft report and the draft summary to HMCI within **three** weeks of the end of the inspection.

HMCI, or HMI acting on behalf of HMCI, will scrutinise the report to check the judgement. Normally, HMCI will not organise a visit by inspectors to corroborate the judgement that the school is in need of significant improvement. However, you should ensure that all the evidence collected during the process of the inspection is available for scrutiny within Estyn. HMCI has the power to call for any information and it is probable that some information additional to that contained in the report will be required.

HMCI has a duty to notify the Minister for Children, Education and Lifelong Learning and the local authority that the school is in need of significant improvement.

Reports and summaries for a school in need of significant improvement

If HMCI **agrees** with your judgement, you should include in the written report on the school, the words 'In accordance with the Education Act 2005, I am of the opinion, and HMCI agrees, that this school is in need of significant improvement'.

If HMCI **does not agree** with your opinion, the reasons will be explained and you will be given the opportunity to discuss HMCI's decision. There are then three options open to you, if you are a registered inspector (only Option 1 is available if you are a reporting inspector):

Option 1

Amend the report and summary by removing the opinion that the school is in need of significant improvement.

Option 2

Issue the report and summary without amendment. You must use the following wording in the report:

'In accordance with the Education Act 2005, I am of the opinion, but HMCI disagrees, that this school is in need of significant improvement';

or

Option 3

Submit a further draft to HMCI including the opinion that the school is in need of significant improvement. HMCI may consider the report again. If HMCI still disagrees then the report is issued with the statement confirming HMCI's disagreement.

Once the report has been published, the following procedures will be implemented:

- the school is placed on a list of schools in need of significant improvement;
- the school works with the local authority to address the weaknesses; and
- about 12 months after the publication of the report, Estyn will undertake an inspection visit to the school and make one of the following decisions:
 - 1 if enough progress has been made, the school can be removed from the list of schools in need of significant improvement; or
 - 2 one further visit is necessary as the school is making adequate progress; or
 - 3 if the school has not made enough progress and does not give any indication that it has the capacity to do so, then consideration will be given to placing the school in special measures.

5 Special measures

Schools in need of **special measures** are likely to have many important areas for improvement in their work. Some schools may have a few important areas for improvement to a very marked degree or many areas for improvement to a lesser degree. In most instances, it will be the cumulative weight and effect of a combination of these areas for improvement which, when taken together, will prompt the judgement that a school is not providing an acceptable standard of education. While one feature alone is unlikely to result in a judgement that a school requires special measures, where you find low standards and poor teaching and learning, risk to pupils or the likelihood of a breakdown of discipline, the school will normally require special measures.

You must also consider carefully if the persons responsible for leading, managing or governing the school are **not** demonstrating the capacity to secure the necessary improvement in the school. In judging whether senior managers have the capacity to bring about improvements, you will need to give attention to how well these persons know and understand the strengths and weaknesses of the school. You should also establish if senior managers show the ability to tackle the weaknesses through the sense of purpose and direction they provide. Discussions with senior managers should provide evidence of how they are tackling these issues and if they are giving attention to the right things. Senior managers should be able to demonstrate that they know what quality of work they expect of learners and those they manage and be able to communicate these expectations to colleagues.

You should also take account of how well informed governors are about issues that affect the performance of the school. You should evaluate how well they use this information to take effective and appropriate decisions. You should consider whether governors meet the duties imposed on them by educational and other legislation.

You may find it helpful to consider the grade awarded to each key question within the **school profile**, which draws together the corporate judgements of the team.

Question	Judgement
The school's current performance	
The school's prospects for improvement	
KQ1 Outcomes	
1.1 Standards	
1.2 Wellbeing	
KQ2 Provision	
2.1 Learning experiences	
2.1 Teaching	
2.3 Care, support and guidance	
2.4 Learning environment	
KQ3 Leadership	
3.1 Leadership	
3.2 Improving quality	
3.3 Partnership working	
3.4 Resource management	

You must give particular consideration to identifying the school as needing special measures when any overall judgement or key question is judged unsatisfactory.

At all times, you should remember that the main emphasis in school inspections is on the standards pupils achieve. The issues identified above should be discussed as a matter of importance in team meetings. The starting point of these discussions would be that these circumstances signal important areas for improvement in the standards pupils achieve, the quality of education provided by the school and/or leadership and efficiency. Your discussions should take account of any mitigating factors to ensure the validity and reliability of judgements before coming to a decision that a school does or does not require special measures.

You may also find it helpful to use the questions below to help you judge whether a school requires special measures. It would not be necessary for each question to be answered as 'yes' to result in a school requiring special measures.

Outcomes

Do pupils underachieve in many or all of the subjects of the NC, religious education and other curricular provision?	yes/no
Do the majority or any particular groups of pupils underachieve consistently in the core subjects of the NC?	yes/no
Are the external examinations or other assessment or accredited results poor in relation to national results?	yes/no
Is the attainment of pupils not as good as pupils in other similar schools?	yes/no
Do any particular groups of pupils underachieve in external examinations or other assessments or accredited results?	yes/no
Are pupils making insufficient progress in their acquisition of knowledge, understanding and skills?	yes/no
Do pupils underachieve in the key skills of literacy, numeracy and information and communications technology across the curriculum?	yes/no
Are pupils regularly disruptive?	yes/no
Are there high levels of truancy, including internal truancy?	yes/no
Do substantial proportions of pupils or a particular group of pupils attend poorly?	yes/no
Is the level of exclusions high?	yes/no
Do pupils lack motivation and display negative attitudes to their work?	yes/no

Provision

Is there a high proportion of teaching with weaknesses?	yes/no
Are the teachers' expectations of pupils' achievement too low?	yes/no
Are relationships between staff and pupils and between pupils themselves poor?	yes/no
Is the provision for pupils' spiritual, moral, social and cultural development poor?	yes/no
Is the school failing to implement the National Curriculum?	yes/no
Are any pupils at physical or emotional risk from other pupils or adults in the school?	yes/no
Is there evidence of significant levels of racial tension or harassment?	yes/no
Does the school fail to prepare pupils for adult life, including the world of work, where appropriate?	yes/no
Does the school fail to promote the wellbeing of its pupils?	yes/no

Leadership

Are the headteacher and/or senior management team ineffective?	yes/no
Is there a significant loss of confidence in the headteacher by the staff, parents or governors?	yes/no
Is a substantial proportion of the staff demoralised and disenchanted?	yes/no
Do the governors fail to fulfil their statutory obligations?	yes/no
Are the relationships between governors and the headteacher impeding progress?	yes/no
Is the school declining rapidly in one or a number of important areas?	yes/no
Are senior managers and the appropriate authorities failing to check any decline in the school's work?	yes/ no
Do the persons responsible for leading, managing or governing the school lack the capacity to secure the necessary improvement in the school?	yes/no
Do the school's budgetary processes lead to inefficient spending?	yes/no
Is poor management of resources and accommodation seriously impeding educational progress?	yes/no
Does the school provide poor value for money?	yes/no

You and your team must be clear about why you judge that a particular school is in need of special measures or requires significant improvement. The team should be able to justify their judgements when the deficiencies are considered in aggregate.

Procedures to be followed if the school is judged to require special measures
--

You should report your judgements using the prescribed wording and you must follow the specific procedures set out below.

If the school is judged to require special measures, you should take the following steps:

- telephone and inform an inspection co-ordinator at Estyn (tel. 029 20 446446) before the school is told of the judgement; no later than the end of the inspection in the school:
 - 1 inform the headteacher orally that in the opinion of the inspection team there are serious deficiencies in the school's performance and capacity, and list those deficiencies;
 - 2 explain that it is likely that the school will be judged to require special measures and that the team now needs to review the evidence; and
 - 3 remind the senior managers of the need to ensure confidentiality about the team's possible findings; and
- at the oral report to senior management, state that the team has judged that the school does not give an acceptable standard of education, and explain carefully the reasons for this judgement, then the following form of words could be used:

'I am of the opinion that special measures are required in relation to this school because it is failing to give its pupils an acceptable standard of education and senior leaders lack the capacity to secure the necessary improvements. In accordance with the Education Act 2005 I shall send a draft report to HMCI and will await her judgement whether she agrees or not that this school requires special measures.'

You should be prepared to justify the judgement, and to take note of any factual matters which the senior management wishes to put forward. You should make clear to senior management that:

- this judgement is your opinion and that of the team;
- in accordance with the Education Act 2005, you will inform HMCI and send them a draft report;
- HMCI must state whether or not they agree with the opinion;
- only if HMCI agrees with the opinion will the school be subject to special measures;
- explain that the submission of at least one draft report may well delay the issue of the report, but that the maximum delay is three months from the time when it was due;
- handle the oral report to the governors in exactly the same way as the report to the senior management;
- use 'Form for schools requiring follow-up activity' to write to HMCI and confirm the judgement already given by telephone that the school requires special measures; and
- send the draft report and the draft summary to HMCI within three weeks of the end of the inspection.

Reports and summaries for schools requiring special measures

You must make clear in the draft report and summary that, in your opinion, the school is not providing an acceptable standard of education and senior leaders lack the capacity for secure the necessary improvement, (that is, it requires special measures). You must also make clear the deficiencies which led to that judgement. The evidence base for the inspection should fully substantiate the judgement.

You should ensure that all the evidence collected during the process of the inspection is available for scrutiny. HMCI has the power to call for any information required, and it is probable that HMCI will require some information additional to that contained in the report, which includes the evidence base for the inspection.

Following receipt of the draft report and summary, Estyn may visit the school within three weeks to corroborate the judgement that the school is in need of special measures. The purpose of this visit will be to:

- inspect those aspects of the school where you have found deficiencies;
- determine the validity of your judgements; and
- check that you conducted the inspection properly.

When Estyn has visited the school and reported on that visit, HMCI will decide whether or not he agrees with the opinion.

If HMCI **agrees** with the judgement that the school is failing to give an acceptable standard of education to its pupils and senior leaders lack the capacity to make the necessary improvements, you should use the following form of words in the report:

‘In accordance with the Education Act 2005, I am of the opinion, and HMCI agrees, that special measures are required in relation to this school’.

HMCI has a duty to notify the Minister for Children, Education and Lifelong Learning and the local authority that the school requires special measures.

If HMCI **does not agree** with your opinion, the reasons will be explained and you will be given the opportunity to discuss HMCI’s decision. There are then three options open to you, if you are a registered inspector (only Option 1 is available if you are a reporting inspector):

Option 1

Amend the report and summary by removing the opinion that the school requires special measures.

Option 2

Issue the report and summary without amendment. Special measures will not apply and you must use the following wording in the report:

'In accordance with the Education Act 2005, I am of the opinion, but HMCI disagrees, that special measures are required in relation to this school';

or

Option 3

Submit a further draft to HMCI including the opinion that the school requires special measures. HMCI may consider the report again. If HMCI still disagrees then the report is issued with the statement confirming HMCI's disagreement.

Once the report has been published, the following procedures will be implemented:

- the school is placed on a list of schools in special measures;
- the school works with the local authority to address the weaknesses; and
- Estyn will monitor the progress of the school on a termly basis.

Form for schools requiring follow-up activity

HMCI
Estyn
Anchor Court
Keen Road
Cardiff
CF24 5JW

School name

Local authority

Inspection number

Date of inspection/...../.....

Date when report is due/...../.....

Name of Registered/Reporting Inspector

I am of the opinion that the school requires:

- ☐ Local authority monitoring
 - ☐ Estyn monitoring visit
 - ☐ Significant improvement
 - ☐ Special measures
- (Please tick as appropriate)

The reasons for this opinion are:

1

2

3

4

etc.

I will send you drafts of the report and the summary by/...../.....

I confirm that I have reported back in these terms to the senior management of the school and to the governors and that the local authority has also been made aware of this opinion.

Yours sincerely,

Registered/Reporting Inspector
